## Speech from the Throne

THE HONOURABLE THE LIEUTENANT-GOVERNOR was pleased to open the First Session of the Twenty-second Legislature of Ontario on Monday, July 16th instant, with the following speech from the Throne:

*Mr. Speaker and Members of the Legislative Assembly:*

The Twenty-second Legislature of Ontario meets to-day in Special Session, and I wish to extend my greetings and cordial good wishes to each one of you. I particularly wish to welcome those newly elected members who are present for the first time.

It is with a profound feeling of thanksgiving that we recall the unconditional surrender of Germany since the last meeting of this Legislature, and already we are welcoming back to their homes many thousands of young men and women from this province who have served with the Armed Forces overseas. But glorious though the victory in Europe has been, it must not be forgotten that Canada still faces a ruthless enemy in the Pacific and that there will be stern and bitter fighting in the months ahead before peace becomes a reality.

It will be a source of general satisfaction that a Dominion-Provincial Conference is to be held in the near future. It is of the utmost importance that the relationship between the Dominion and Provincial Governments be clarified as soon as possible. This is particularly so in the case of rehabilitation and post-war construction.

This Session has been convened for the purpose of dealing with Legislation requiring immediate attention which had not been disposed of at the dissolution of the last Legislature.

Among the Acts or amendments requiring urgent consideration are some pertaining to:

- (a) Education;
- (b) The payment of cheese, hog and sugar beet subsidies;
- (c) Loans and mortgagors' and purchasers' relief;
- (d) Statutes Amendment Act;
- (e) The Supply Bill for the current year to provide for the orderly administration by the government of the affairs of the province.

While these matters were of such urgency as to make it necessary to call this Special Session of the new Legislature, I wish to advise you that my Ministers will place before you for your consideration many other legislative proposals when next you meet.

In conclusion may I express my earnest hope that Divine Providence will so guide your deliberations that they may promote the security and happiness of the people of Ontario.

2.—(1) The applicant for a water privilege situated on Crown lands shall file in the Department,—

(b) a report by a competent engineer satisfactory to the Minister showing,—

(i) the location of the water privilege applied for and a description of the land required in connection therewith,

(ii) the height of the fall or rapid, the volume of water at the average high and low stages of same, the estimated capacity in horsepower of the fall or rapid in its natural condition at the average low stage of water, the height of the dams or weirs, if any, which it is proposed to construct and the increase in the level of the water which such dams or weirs will bring about,

(iii) the plan by which the applicant proposes to develop the water privilege, showing the dams, weirs, tunnels, races, flumes, sluices pits and other structures or works which it is proposed to build or make in connection therewith, the estimated cost thereof and the form in which the power is to be used or transmitted, that is, whether by direct energy, electricity, compressed air or otherwise, and

(iv) the land or lands which would be overflowed or otherwise affected by the raising of the water or the construction of the dams, weirs, sluices, races or other works in connection with the development or use of such water privilege, and the owner or owners thereof;

(c) a statement showing the nature and location of the business, plant or manufactory in connection with which it is proposed by the applicant to utilize the water privilege and the number of horsepower which the applicant proposes to develop and utilize;

(d) proof satisfactory to the Minister,—

(i) that the water privilege is required for the applicant's own mechanical or industrial purposes or to supply an actual or anticipated demand for power in the neighbourhood of the privilege, and

(b) the plans and specifications showing the proposed works for the development of the said privilege,

and such works shall not be proceeded with until the Minister has approved the same.

4. Before the lease of a water power is granted the Minister may require the applicant to deposit with the Treasurer of Ontario a sum of money to be named by the Minister, conditional upon the carrying out of the works of construction and development specified in

the lease within the period therein named and such sum shall be returned to the lessee upon the due fulfilment of the condition, but otherwise shall be forfeited to His Majesty in right of Ontario.

5. Upon compliance with the foregoing regulations and upon approval of the application by the Minister in writing he may order a lease of the water privilege to be issued to the applicant upon such terms and conditions and at such rental as may be fixed by the Minister and the rental reserved by any such lease or any renewal thereof shall be payable yearly in advance.

- (a) requiring the development and use within a period or periods to be named in the lease of a specified quantity or quantities of power or energy estimated in horsepower;
- (b) if the quantity of power required by the lease to be developed within a period or periods therein named is less than the full capacity of the privilege, upon report thereof being made by the Minister to that effect, and also that there is a *bona fide* demand for power which can be supplied therefrom, the Lieutenant-Governor in Council may require the lessee to develop the said privilege to its full capacity or to such other extent as he may deem proper or requisite within a period or periods of time to be named in the Order-in-Council;

- (l) at the expiry or sooner determination of the lease, the water privilege shall revert to and become the property of the Crown as fully as

if no such lease had been granted, together with all dams, weirs, tunnels, races, flumes, sluices, pits and other structures or works made or erected by the lessee in connection therewith, and all buildings erected on land covered by the lease; but the lessee shall be allowed a reasonable time, to be fixed by the Minister, in which to remove all machinery employed by him in the development and use of the privilege, failing which removal, such machinery shall become the property of the Crown, provided that where any such buildings or structures are of a permanent character and necessary or useful for the proper development or utilization of the water privilege, the Lieutenant-Governor in Council may upon report in that behalf by the said Minister, pay the lessee by way of compensation therefor and purchase thereof such sum or sums as he may deem proper out of such moneys as may be appropriated for the purpose by the Legislative Assembly; and

  - (ii) at any time after the water privilege has been developed, either in whole or to the extent to which the lessee is bound or required to develop it, the lessee has continuously failed or neglected for the space of one year effectually to produce power from the privilege either for his own use or that of other persons, unless hindered by unavoidable accident, or

11. Where a water privilege is applied for by a municipal corporation for the purpose of supplying water, power, light or heat for the use of the inhabitants of the municipality, the Minister may issue a lease of the privilege to the corporation if it is otherwise entitled to receive and hold the privilege on such special terms and conditions and at such rental as he may deem proper.

12. The Minister may refer to the Hydro-Electric Power Commission of Ontario any application for the leasing of any water privilege or any matter arising out of such application or any lease made in pursuance thereof, whether hereafter or heretofore issued, for consideration, investigation and report.
